

B.Nr:10. FOSNA. Fiskebåt til Myrseth, Larsen og Knudtsen i Kristiansund. Sjø satt 13. August 1897. Båten var 22,5 meter lang, 4,9 meter bred og 59 bruttotonn. Dampmotoren var en compound på 130 ihk, også bygd av M+K. Båten gjorde 9 mils fart. Prisen var 28 000 NKr. I 1906 ble den forlenget med 4,3 meter. 17 September 1908 grunnstøter FOSNA på vei hjem fra Island. Årsaken er brukket rorledning. Båten gikk tapt, men mannskapet ble berget.

B. No: 10. FOSNA. Fishing boat for Myrseth, Larsen and Knudtsen in Kristiansund. Launched on 13 August 1897. The boat was 22.5 meters long, 4.9 meters wide and 59 gross tonnes. The steam engine was a compound of 130 ihk, also built by M+K. The boat made 9 miles of speed. The price was NOK 28,000. In 1906 it was extended by 4.3 metres. 17 September 1908 FOSNA runs aground on its way home from Iceland. The reason is a broken rudder cable. The boat was lost, but the crew was rescued.
